

E3 Resource Guide

Who will be the first to experience the enhanced myPLTW platform?

This Summer, the following PLTW Programs will be within the enhanced myPLTW platform:

- PLTW Algebra 1 Advantage
- PLTW Biomedical Science
- PLTW Core Training
- PLTW Professional Development Suite

Introducing our Empowering Educational Experiences (E3) initiative at PLTW

E3 Vision:

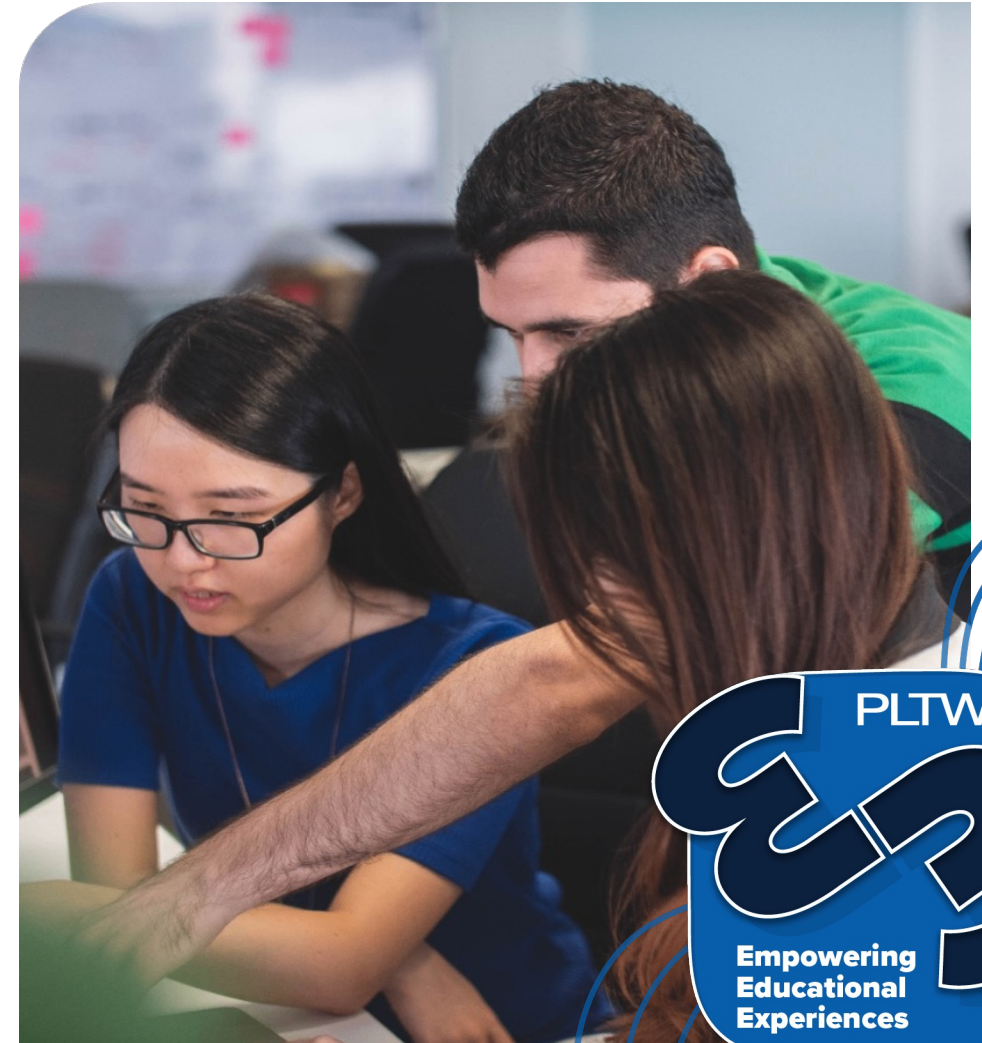

Provide an **inclusive** and **empowering** experience for students and teachers by delivering a **customer-centric** platform that addresses their **evolving** needs.

What Remains The Same:

No disruptions or changes to the current myPLTW experience will occur this 2023-2024 school year. Biomedical Science Teachers will have plenty of time this summer to familiarize themselves with the new experience.

What remains the same:

1. myPLTW login will not change
2. All our content will still be there with the same course structure
3. The rostering process will remain the same
4. We will still get just-in-time updates to content as it is improved or updated

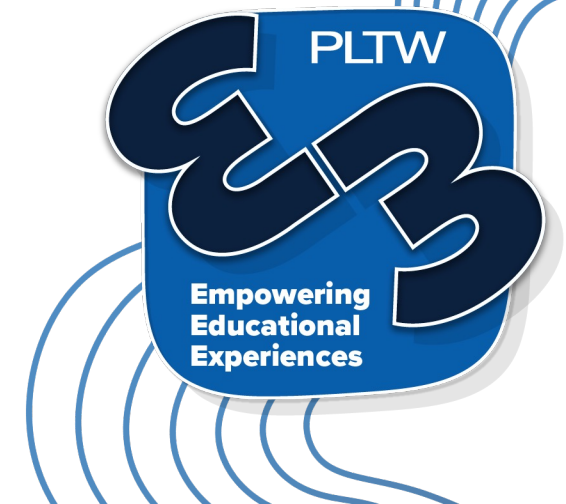

What will be new within the enhanced myPLTW experience?

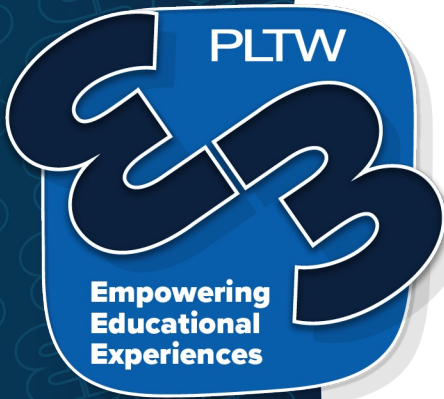

Classroom Experience:

1. Teachers can **now track student progress** and have greater insight into student activity in a course, such as page views and time on page.
2. Instead of the endless scrolling within courses, the new experience will involve simple clicks to **move through content horizontally in chunks**.
3. Instead of text boxes that are only visible to students, **teachers are now able to see student submissions** and even communicate back to students and **share responses**.
4. **Within the teacher guide**, teachers can now see the **complete student material** and their **facilitation notes** and **answer keys all in one place**.

Training Experience:

1. Training participants can now **use one platform to view training and submit assignments**, instead of having to submit training assignments in a separate portal.
2. The **new Learning Path model** will provide a more guided experience for training participants.
3. Master Teachers will now have visibility into where training participants are within their course and can also **see participant text box submissions and provide comments**.

E3 Training Update

We will be providing several E3 training opportunities starting in April 2024, including short, self-paced videos and multiple Q&A session webinars to answer any questions and provide additional support.

Short, Self-Paced Videos:

- Short, Self-paced videos on specific E3 training topics that will help users navigate the enhanced myPLTW experience

Q&A Session Webinar:

- 1-hour optional session
- The PLTW team will share E3 training resources and be available to gather questions to improve E3 training support

Below are a few training topics teachers can expect:

- Navigating through the enhanced myPLTW experience
- Reporting and progress tracking
- Student course walkthrough
- Teacher guide walkthrough
- Submissions and grading

Timeline:

April 2024:

- **04/10:** Change Champions become first group to learn about future E3 training opportunities
- **04/17:** E3 training kick-off announcement:
 - E3 training dates confirmed and additional information on how to sign up for Q&A Session Webinars will be provided
- **04/26:** Short, self-paced videos on specific E3 training topics are released and shared with impacted groups

May 2024:

- **05/06:** The enhanced myPLTW experience will be available to preview for those impacted
- **Starting 05/09:** Q&A Session webinars will kick-off and will continue through 05/16

June 2024:

- Additional E3 training resources and sessions will be provided
